

182077

**12V ELECTRIC WINCHES**

182010

182085

- Designed for mounting in almost any position
- Unit comes complete with 24 foot power harness that connects to the winch switch
- Mounted switch can be operated with remote lanyard
- Power-in and power-out
- Self-locking gearbox
- Dynamic braking action
- Pulley block for double-line operation doubles pulling capacity, extends winch and wire rope life
- EW-60A features hand-held forward reverse switch on a 10' cord for remote operation

**CAUTION**

Do not use as an overhead hoist. Do not exceed rated capacity. Do not use for lifting people or loads over people. Before installation read owners manual for additional warnings and precautions.
